HIGH SCHOOL *Welding* CAMP

THIS CAMP IS OPEN TO COPESD STUDENTS ENTERING GRADES 10, 11, OR 12 IN FALL 2026

June 22-23, 2026

9:00AM - 3:00PM

Industrial Arts Institute
20902 Washington St., Onaway, MI

Join us for a two-day high school beginner welding camp! Students will participate in hands-on training and engaging technical exercises focusing on fillet welding, along with an introduction to flat groove welding, gas metal arc welding, or flux core arc welding. This is a unique opportunity for students to earn an American Welding Society (AWS) D1.1 Welder Procedure Qualification Record. This dynamic experience will inspire students to explore rewarding careers in the welding and metal fabrication industry.
Don't miss out on this exciting opportunity!

This class is for students who have NOT taken a high school welding class.

Safety Clothing Requirements: ** Participants are required to wear long-sleeved cotton shirts, jeans that can be worn over boots (with no rips or frays), high cotton socks, and leather steel-toed work boots.

Explore the exciting and rewarding careers available in the Welding and Metal Fabricating Industry

REGISTRATION OPENS MAY 1, 2026
